DataMatrix System Inc. is proud to announce that in Oct. of 2011 we will celebrate our 25th anniversary. During a Rugby Football game back in 1986 Henry N. Strohm and Carl C. Krzywiec had a conversation about their jobs and the future of the computer industry. Who would have known that conversation would lead to a longtime friendship and a growing business?

From their humble beginnings in Henry's basement to their present location in East McKeesport, Carl and Henry have built a computer business built on honesty, trust and reliable customer service. The company has weathered many storms over the past 25 years as technology and our economy continues to evolve. The use of computers has changed the way we live and work in more ways than we could have ever imagined and will continue to do so. DataMatrix System Inc. will be there to service all the computer and technology needs of your business now, and well into the future.

Complete computer systems & networks....design, build, manage and evolve.....featuring HP servers, PCs and laptops.

ConnectCare - Proactive, onsite and remote network management and support services.

ConnectWatch - 24/7 networking monitoring, alerting and reporting service.

DataMatrix became a member of EABA in June 1998 and 13 years later, Carl Krzywiec has become a very important part of our team. His knowledge of computer systems is the reason we have an impressive WEBSITE. Carl's commitment to our association was solidified when he accepted a position on the Board of Director's. Thank you for your dedication to, and your support of the East Allegheny Business Association.

Congratulations on being the EABA May Member of the Month.
